

The 18th ITS ASIA PACIFIC FORUM
April 27-29, 2022
Chengdu, China

SPEAKER GUIDELINES FOR INTERACTIVE SESSIONS

Interactive Session Description

- Interactive Sessions will present papers and the authors can exchange their latest research findings and results.
- Since the interactive sessions will be held in digital format, all the presentations will be delivered in the pre-recorded video format.
- During the forum, the presentation video will be released synchronously on-demand, and the presentation recording time limit is less than 15 minutes.
- The official language of the forum is English, and no translation services are available.

Biography

- The speaker's biography will be displayed together with the presentation video.
- If you would like the audience to contact you for further questions, you may put your email address in the biography.
- The biography should be within 200 words, and a personal image photo will be attached (pixel requirements: 750px*375px)
- The biography should be submitted to 457419733@qq.com by April 8, 2022.
- Please name the file in the form of "AP_2022_IS_Biography_Author's Name".

Presentation Preparation and Submission

- All presentations should be prepared and presented in PowerPoint.
- The Windows Operating System is supported.
- Animation should be in AVI, Media Player or QuickTime and embedded into your presentation.
- PowerPoint slides should be in 16:9 format.
- All the PowerPoint slides should be submitted to 457419733@qq.com by April 8, 2022.
- Please name the file in the form of "AP_2022_IS_PPT_Author's Name".
- It is highly recommended to use the presentation template of the 18th ITS AP Forum. You may also download the template through the link:

Chengdu, China

than 15 minutes.

Requirements of Speech Video Shooting:

- Please shoot the videos in landscape (16:9)
- To ensure the clarity of videos, please try to shoot with 4K device
- The color of clothes should not be similar to the background color, and dark clothes can be considered
- Please do not wear clothes with stripes and wavy patterns

Environmental requirements of shooting site:

- For the shooting background, it is recommended to choose the scene related to the content tonality;
- For the background environment, it is recommended to choose non-interference area for shooting. Please wear headphones with good effect, and remember that the effect of headset microphones would be better than that of the microphones of computers.
- In the choice of background environment, we should avoid too bright background color and too messy scenes;
- Lens: pay attention to the position and height of the person being photographed in the picture, and ensure that the light of the face is sufficient; avoid backlighting or shooting with windows as background; head-up camera is required when shooting; the proportion of characters in the picture should not be too full. Try to leave some space in the head and left and right parts of the body, and ensure that the frame of the character is below the chest;
- Try not to shoot with a beauty camera or a beauty APP.

Speech video shooting method:

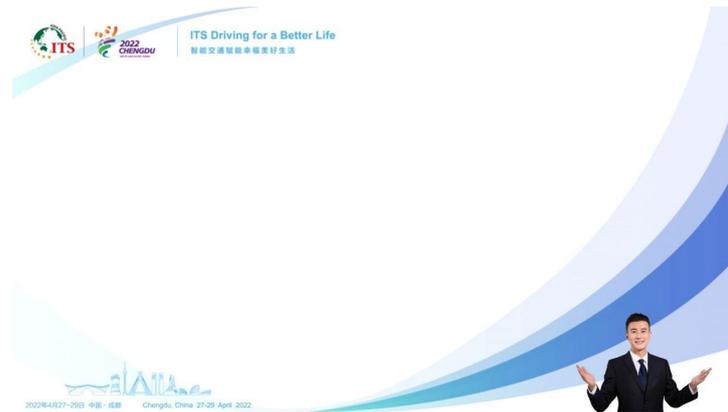

Recording in zoom:

- Log into Zoom, and start a meeting with your camera on;
-

The 18th ITS ASIA PACIFIC FORUM
April 27-29, 2022
Chengdu, China
